LODDON MALLEE

# Conversation starter

If you would like to raise the topic of gender equity at your community group, committee, working group or board – the one page document can help.

- It names the topic
- It asks whether people care
- It asks questions

# Quality Improvement Resource

Your organisation has taken the big step of deciding that a gender equity focus would improve performance on leadership, retention and violence prevention.

The Quality Improvement Resource provides guidance, using quality improvement framework and language, to address gender equity considerations and steps.

The Resource links to tools.

# Gender Equity Cards

While groups might be exploring the or attempting to embed concept –there is often still a big gap between knowing the words and having a strong sense of connection to the meaning.

The cards are for use in groups and enables self directed conversation about the scenarios, questions and statements.

The cards prompt reflection and raise issues opening conversation and developing understanding.
